Workouts in a pinch!

WHAT IS HIIT?

HIIT is a training idea in which low to moderate intensity intervals are alternated with high intensity intervals.

HIIT can be applied to running or to exercises such as squatting. HIIT is considered to be much more effective than normal cardio because the intensity is higher and you are able to increase both your aerobic and anaerobic endurance while burning more fat than ever before.

**POST YOUR CALORIE BURN AND
TIME TO THE WORKOUT CO
FACEBOOK PAGE.**

7-MINUTE — HIIT — Workout

Do each exercise at high intensity for 30 seconds followed by a 10-second rest if needed. Repeat entire circuit up to three times.
